

Cattle Drone School

Claresholm, AB
November 1 - 2, 2022

**See your ranch
in a new light**

Drone School for Ranchers

Fly Safely

- Flight training suitable for complete beginners
- From first takeoff to autonomous mapping
- DJI Tello included, to keep practicing at home

Fly Legally

- Basic ground school: air law, drone systems, theory of flight, human factors, meteorology, navigation
 - Take the Transport Canada online test, leave with your Basic Pilot's Certificate

Save Time & Make Money

- Hosted by FFGA with focus on livestock uses, but also suitable for forage and crop producers
- Special guest instructor:
Dr. John Church, Thompson Rivers University
- Demystifying the remote-sensing jargon:
NDVI, multispectral, thermal, LiDAR
- Hands-on practice & real-world farm uses
